

GEORGE RUSU.

Brand of the person, not of a company. An engineer who runs real operations: direct, technical, a little loud. Black ground, off-white type, one acid lime.

01 / COLOUR

Ground
#08090A
RGB 8 9 10

Ink
#F4F4EE
RGB 244 244 238

Acid lime
#C8FF2E
RGB 200 255 46

Panel
#101214

Panel 2
#15181B

Line
#23272B

Text on
lime
#0A0A0A

Secondary text: #9EA3A8. Lime is the only accent: one word, one button, one live state. Never body text.

02 / TYPE

ARCHIVO 900

Archivo 800, subheads

Archivo 400 for everything read in sentences.

JETBRAINS MONO · 01 / LABEL

Headlines: uppercase, tracking -0.045em, leading 0.9.

Labels: mono, uppercase, tracking +0.08em. Both free on Google Fonts (Open Font License).

03 / SHAPE

A Panels and cards: 18 px radius, 1 px hairline border.

B Buttons and chips: fully round.

C Faint square grid behind large areas, fading out.

D No gradients, no glow, no drop shadows on type.

WHAT THE LOGO MUST DO.

The current mark is a placeholder: the letter G in Archivo 900 on a rounded lime square. It is the starting point, not the answer.

A / THE JOB

A monogram for one engineer.

It stands for George Rusu, AI and automation engineer. It appears as a browser icon, a profile avatar, the corner of a CV and the first frame of a demo video.

It should feel technical and confident: something a person who keeps systems running would put their name behind. Ideas worth exploring: the letter G or the initials GR; a hint of a running process (a cursor, a step, a signal) without drawing a robot, a brain or a circuit.

B / DELIVERABLES

MARK	Square, works at 16 px
LOCKUP	Mark + “George Rusu”
VERSIONS	On black, on lime, on white, one colour
FILES	SVG, PNG 512 and 1024, favicon 32
CLEAR SPACE	Half the mark’s width on every side

DO

Use only black, off-white and the acid lime

Keep it legible at favicon size

Rounded square or free-standing letterform

Stay clearly different from FLOWENTIC

DON'T

Add a second colour, a gradient or a glow

Fine lines or small text inside the mark

Circles with orbiting dots, brains, robots, circuit traces

Warm paper, ochre, the letter “f”, soft serif shapes

C / WHERE IT LIVES
